under the auspices of UNESCO

UCPBL visitor workshop on Problem Based and Project Organised Learning

This workshop is an introduction workshop to the Aalborg PBL model and to problem based and project organised learning. The workshop aims for the following learning outcomes:

After following the workshop the participants will:

- understand PBL as a system and be able to recognize the various components of the system such as: problems, projects, courses, learning objectives, assesment, process (transferable) skills, etc.;
- be able to address critical issues such as: curriculum innovation and management of change; cooperation among teachers; the impact of assessment of learning outcomes;
- be able to identify relevant factors in preparing to implement PBL principles in their own environment.
